

WEAFRI WELL SERVICES COMPANY LIMITED

ENVIRONMENTAL PROTECTION POLICY

WEAFRI is committed to the prevention of accidental loss of resources and assets that affects employees and company's business objectives by focusing on our primary environmental concerns, which consist of the appropriate use of natural resources, management of wastes, land contamination, material storage, water discharges, and minimising emissions to air.

It is WEAFRI policy to carry out all activities in a manner that minimizes environmental impacts, conserves natural resources and provides effective stewardship of the environment. To this end, WEAFRI is committed to making environmental management practices an integral part of the company business culture by:

- Ensuring that no harm is caused to our environment through implementation of environmental friendly processes and standard practices in all our operations.
- Identifying environmental aspects such as emissions to the atmosphere, releases of contaminants into water and land, use of energy, heat radiation and vibration in order to reduce wastes and pollution.
- Promoting pollution prevention, waste minimization, and conservation
- Complying with applicable national, international laws, regulations and requirements.
- Providing adequate training to all our employees in order to enhance their environmental awareness.
- Providing the resources necessary for employees and associates to conduct their work in accordance with applicable environmental regulations and requirements;
- Continuously monitor and review work procedures to ensure that new methods and safe working procedures are adopted to protect the Environment.
