

**WEAFRI**

## **WEAFRI WELL SERVICES COMPANY LIMITED**

### **QUALITY POLICY AND QUALITY OBJECTIVES**

WEAFRI is committed to consistently provide quality services to the Oil & Gas Industries in Well Construction, Well Intervention and Pipeline Maintenance that meet customers' needs, statutory and regulatory requirements. WEAFRI shall continually improve on her service provision with the target to exceed customer expectations while complying with all the requirements of **NIS ISO 9001: 2015** Standard.

Our mission is to achieve the objectives of the business by providing professional quality services that will build trust and respect amongst our customers while ensuring a risk based approach to managing opportunities and risks.

To continually improve on our professional standards, WEAFRI provides a framework that establishes and reviews **quality objectives** which include:

- Implementation of a management system that ensures that our quality standards meet the requirements of **NIS ISO 9001: 2015**.
- Meeting customer requirements on timely and cost effective service delivery with risk based approach in a professional manner.
- Continuous improvement of our expertise through teamwork and effective communication.
- Development of competent personnel through commitment to training.
- Continual system review to ensure its suitability, sustainability and compatibility based on the context and strategic direction of the company.
